MEMORANDUM FOR: Chief, D/T

FROM : Chief, T/SP

SUBJECT : Meeting With DIA on Coordination of Appendix to
McNamara IV Project

FOIAb3d

[REDACTED] of DIA met with [REDACTED] on 24 April 25X1A9a
at CIA Headquarters to discuss differences in the process of coordinating
"The Effects of the Rolling Thunder Program" appendix of the McNamara IV
paper. [REDACTED] sat in on the meeting when he was available. The
major disagreement lay in the transportation section. [REDACTED] 25X1A9a

25X1A9a [REDACTED] discussed differences in this section while
25X1A [REDACTED] discussed differences in the rest of the appendix.

FOIAb3d

FOIAb3d

Most of the suggested changes, other than on transportation, were minor,
although a few either have been or will need to be checked out with the
appropriate analysts.

FOIAb3d

2. [REDACTED] has not yet received replies on the paper from
all components of DIA. For example, DIA has not finished checking the
cost data. In this area, he said there was some feeling in DIA that the
cost of ammunition expended against attacking aircraft should be entered
as a cost to North Vietnam. He knew, however, that as yet there was
not even agreement between CIA and DIA on the amount of ammunition
expended. Since the meeting, [REDACTED] stated that they would also
like to have the cost of construction of bypass roads, alternate
crossings, etc. entered as a cost to North Vietnam.

FOIAb3d

3. As a result of the 24 April meeting, [REDACTED] 25X1A9a
[REDACTED] is meeting
again with [REDACTED] on 2 May at Arlington
Hall Station in an effort to come to some agreement on his part of the
section. [REDACTED] feels that such a meeting would be of no benefit
on his part. [REDACTED] said that there also were some differences
in the "Scale of Operations" appendix, but he and [REDACTED] have not 25X1A9a
yet gotten together.
